May 31, 2013

Last year, we hired Heath Hutchinson of W.H. Hutchinson Services to remove from the Library's property a large amount of brush and debris left over from the October 2011 snow/ice storm. Heath did such a great job that we hired him to work on our neglected gardens. As The Jones Library is a prominent building located in the center of Amherst, we needed to return our gardens to their former beauty using a proven landscaper.

The initial renewal project included removal of leaves and other debris in beds, trimming of bushes and shrubs, weeding out dead growth, and mulching. We also had an area that needed total removal of large, overgrown shrubs, and a mature oak tree that needed extensive pruning.

Once the initial clean-up occurred, we hired Heath to maintain the Library's gardens on an annual basis, from April through October.

Heath has consistently taken great care to meet our needs and achieve our goals. All work is done with great professionalism and in a very timely manner. We encourage him to use his best judgment in dealing with the plantings and could not be happier with the results. We receive praise daily from patrons who have noticed the transformation!

We highly recommend W.H. Hutchinson Services, and look forward to their involvement in future projects.

Sincerely,

Sharon A. Sharry,
Library Director

George F. Hicks,
Facilities Supervisor
